

## Bin Tipper

The Alpha 1 bin tipper is one of the many standard products brought to the forging industry by the Inductotherm Group of companies. Alpha 1 specializes in the coils and material handling equipment required by today's forgers. This includes our step & rotary billet feeders, bin tipper, modular conveyors, fast extractors and billet reject systems.

### Features

- Allows a bin of parts to be queued to billet feeder for automatic refill.
- Easy to use solid state controls.
- Hydraulic operation with heavy-duty motor and pump to provide maximum efficiency with minimal noise.
- Heavy gauge welded steel construction.
- Robust pillow block style bearings.
- Dual hydraulic cylinder operation.
- Large capacity hydraulic fluid tank with filter.
- Pressure and hydraulic fluid level gauges.
- Specify right or left hand version when ordering.
- Holds most standard size bins at approximately 6,500 pound capacity.
