

## Alpha 1 Rotary Feeders

The Alpha 1 rotary billet feeder is one of the many standard products brought to the forging industry by the Inductotherm Group of companies. Alpha 1 specializes in the coils and material handling equipment required by today's forgers. This includes our step & rotary billet feeders, bin tipper, modular conveyors, fast extractors and billet reject systems.

### Features

- Provides continuous feeding of billets end to end on the diameter.
- Accepts parts from a bin dumper or a drop bottom bin.
- Hopper manufactured from 0.25" - 0.375" thick steel.
- Heavy duty roller chain.
- Ability to reverse for high speed unloading.
- Variable speed chain conveyor.
- Controls designed to interface with your equipment.
- Specify right or left hand version when ordering.
- Round, square, multi sided tubes or solid bars can be handled.
- Sensors & limit switches to feed on demand.

Standard Rotary Hopper Feeders
